

Notes Forming Part of Financial Statements

1. BACKGROUND AND OPERATIONS

Tata Motors Limited referred to as ('the Company" or "Tata Motors'), designs, manufactures and sells a wide range of automotive vehicles. The Company also manufactures engines for industrial and marine applications.

The Company is a public limited Company incorporated and domiciled in India and has its registered office at Mumbai, India. As at March 31, 2020, Tata Sons Pvt. Limited, together with its subsidiaries owns 42.32% of the Ordinary shares and 5.35% of 'A' Ordinary shares of the Company, and has the ability to significantly influence the Company's operations.

These standalone financial statements were approved by the Board of Directors and authorised for issue on June 15, 2020.

2. SIGNIFICANT ACCOUNTING POLICIES

a. Statement of compliance

These financial statements have been prepared in accordance with Ind AS as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (the "Act").

b. Basis of preparation

The financial statements have been prepared on historical cost basis except for certain financial instruments measured at fair value at the end of each reporting period as explained in the accounting policies below.

Joint operations

Certain of the Company's activities, are conducted through joint operations, which are joint arrangements whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. As per Ind AS 111 - Joint arrangements, in its separate financial statements, the Company being a joint operator has recognised its share of the assets, liabilities, income and expenses of these joint operations incurred jointly with the other partners, along with its share of income from the sale of the output and any assets, liabilities and expenses that it has incurred in relation to the joint operation.

Although not required by Ind ASs, the Company has provided in note 50 additional information of Tata Motors Limited on a standalone basis excluding its interest in its two Joint Operations viz. Tata Cummins Private Limited and Fiat India Automobiles Private Limited.

c. Going concern

These financial statements have been prepared on a going concern basis. The management has given the significant uncertainties arising out of the outbreak of COVID-19, as explained in Note (d) (v), assessed the cash flow projections and available liquidity for a period of twenty four months from the date of these financial statements. Based on this evaluation, management believes that the Company will be able to continue as a 'going concern' in the foreseeable future and for a period of at least twelve months from the date of these financial statements based on the following

- i) As at March 31, 2020, the Company reviewed its business and operations to take into consideration the estimated impacts and effects of the COVID-19 pandemic, including the estimated impact on the macroeconomic environment, the market outlook and the Company's operations. Expected future cash flows from operating activities and capital expenditure is based on the undermentioned key assumptions in the business projections:

- Revenues based on latest total industry forecasts/estimates.

Indian automobile industry volume forecast of about 2.78 million units and 3.18 million units for the financial year ending March 31, 2021 and 2022, representing decreases of about 21% and 9%, respectively compared to year ended March 31, 2020 industry volumes of about 3.50 million units. A decrease in the Company volumes is somewhat less for the year ending March 31, 2021 and 2022, compared to the industry assumptions referenced.

- Reduction in capital expenditure considering the macroeconomic environment by suspending certain programs. Estimated capital expenditure for the year ending March 31, 2021 is ₹1,500 crores for the Company.
- Working capital cash inflows due to lower levels of inventory and trade receivables along with increase in acceptances with more suppliers/ vendors opting for the same resulting in a net cash inflow of ₹1,500 crores in the year ending March 31, 2021 as compared to year ended March 31, 2020.

- ii) Available credit facilities

- Long term borrowings subsequent to March 31, 2020 raised of ₹1,000 crores [Note 50 (v)] and borrowings agreed with lenders of ₹3,000 crores.
- Various undrawn limits available with the Company amounting to ₹4,065 crores, under Revolving credit facility and limits with Consortium banks as at March 31, 2020.
- Exercise of options by Tata Sons Private Limited (Note 22).

Based on the above factors, Management has concluded that the 'going concern' assumption is appropriate. Accordingly, the financial statements do not include any adjustments regarding the recoverability and classification of the carrying amount of assets and classification of liabilities that might result, should the Company be unable to continue as a Going Concern.

Notes Forming Part of Financial Statements

d. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

- i) Note 3 and Note 5 - Property, plant and equipment and Intangible assets- useful life and impairment
- ii) Note 30- Recoverability/recognition of deferred tax assets
- iii) Note 28 and 29 - Provision for product warranty
- iv) Note 48- Assets and obligations relating to employee benefits
- v) Estimation of uncertainties relating to the global health pandemic from COVID-19.

The World Health Organisation in February 2020 declared COVID-19 as a pandemic. The pandemic has been rapidly spreading throughout the world, including India. Governments around the world including India have been taking significant measures to curb the spread of the virus including imposing mandatory lockdowns and restrictions in activities. Consequently, the Company's manufacturing plants and offices also had to be closed down for a considerable period of time, including after the year end. As a result of the lockdown, the likely revenue for the quarter ended March 2020 has been impacted. Continued lockdowns are likely to impact the Company operationally including on supply chain matters. The Company is monitoring the situation closely taking into account directives from the Government.

Management believes that it has taken into account all the possible impacts of known events arising from COVID-19 pandemic and the resultant lockdown in the preparation of the financial statements including but not limited to its assessment of liquidity and going concern, recoverable values of its property, plant and equipment, intangible assets, intangible assets under development and the net realisable values of other assets. However, given the effect of these lockdowns on the overall economic activity in India and in particular on the automotive industry, the impact assessment of COVID-19 on the above-mentioned financial statement captions is subject to significant

estimation uncertainties given its nature and duration and, accordingly, the actual impacts in future may be different from those estimated as at the date of approval of these financial statements. The Company will continue to monitor any material changes to future economic conditions and consequential impact on its financial results.

e. Revenue recognition

The Company generates revenue principally from-

- i) Sale of products- commercial and passenger vehicles and vehicle parts

The Company recognises revenues on the sale of products, net of discounts, sales incentives, customer bonuses and rebates granted, when products are delivered to dealers or when delivered to a carrier for export sales, which is when control including risks and rewards and title of ownership pass to the customer.

The consideration received in respect of transport arrangements for delivering of vehicles to the customers are recognised net of their costs within revenues in the income statement.

Revenues are recognised when collectability of the resulting receivable is reasonably assured.

- ii) Sale of services- maintenance service and extended warranties for commercial and passenger vehicles

Income from sale of maintenance services and extended warranties are recognised as income over the relevant period of service or extended warranty.

When the Company sells products that are bundled with maintenance service or extended period of warranty, such services are treated as a separate performance obligation only if the service or warranty is optional to the customer or includes an additional service component. In such cases, the transaction price allocated towards such maintenance service or extended period of warranty is recognised as a contract liability until the service obligation has been met.

The Company operates certain customer loyalty programs under which customer is entitled to reward points on the spend towards Company's products. The reward points earned by customers can be redeemed to claim discounts on future purchase of certain products or services. Transaction price allocated towards reward points granted to customers is recognised as a deferred income liability and transferred to income when customers redeem their reward points.

Sales of services include certain performance obligations that are satisfied over a period of time. Any amount received in advance in respect of such performance obligations that are satisfied over a period of time is recorded as a contract liability and recorded as revenue when service is rendered to customers.

Notes Forming Part of Financial Statements

Refund liabilities comprise of obligation towards customers to pay for discounts and sales incentives.

f. Government Grants and Incentives

Other income includes export and other recurring and non-recurring incentives from Government (referred as "incentives").

Government grants are recognised when there is a reasonable assurance that the Company will comply with the relevant conditions and the grant will be received.

These are recognised in the statement of profit and loss, either on a systematic basis when the Company recognises, as expenses, the related costs that the grants are intended to compensate or, immediately if the costs have already been incurred. Government grants related to assets are deferred and amortised over the useful life of the asset. Government grants related to income are presented as an offset against the related expenditure, and government grants that are awarded as incentives with no ongoing performance obligations to the Company are recognised as income in the period in which the grant is received.

g. Cost recognition

Costs and expenses are recognised when incurred and are classified according to their nature. Expenditure capitalised represents employee costs, stores and other manufacturing supplies, and other expenses incurred for construction including product development undertaken by the Company.

h. Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Product warranty expenses

The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidences based on actions on product failures. The timing of outflows will vary as and when warranty claim will arise, being typically up to six years. The Company also has back-to-back contractual arrangement with its suppliers in the event that a vehicle fault is proven to be a supplier's fault.

Estimates are made of the expected reimbursement claim based upon historical levels of recoveries from supplier, adjusted for inflation and applied to the population of vehicles under warranty as on Balance Sheet date. Supplier reimbursements are recognised as separate asset.

Provision for onerous obligations

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting its obligations under the contract. It is recognized when the Company has entered into a binding legal agreement for the purchase of components from suppliers that exceeds the benefits from the expected future use of the components and the Company sells the finished goods using the components at a loss.

i. Foreign currency

These financial statements are presented in Indian rupees, which is the functional currency of Tata Motors Limited. Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Foreign currency denominated monetary assets and liabilities are re-measured into the functional currency at the exchange rate prevailing on the balance sheet date. Exchange differences are recognised in the statement of Profit and Loss except to the extent, exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings, are capitalised as part of borrowing costs.

j. Income taxes

Income tax expense comprises current tax and deferred tax. Income tax expense is recognised in the statement of Profit and Loss except when they relate to items that are recognised outside profit and loss (whether in other comprehensive income or directly in equity), in which case tax is also recognised outside profit and loss. Current income taxes are determined based on respective taxable income of each taxable entity.

Deferred tax assets and liabilities are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilised business loss and depreciation carry-forwards and tax credits. Such deferred tax assets and liabilities are computed separately for each taxable entity. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised.

Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Current and deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Notes Forming Part of Financial Statements

k. Cash and cash equivalents

Cash and cash equivalents are short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

l. Earnings per share

Basic earnings per share has been computed by dividing net income by the weighted average number of shares outstanding during the year. Partly paid up shares are included as fully paid equivalents according to the fraction paid up. Diluted earnings per share has been computed using the weighted average number of shares and dilutive potential shares, except where the result would be anti-dilutive.

m. Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of raw materials, components and consumables are ascertained on a moving weighted average basis. Cost, including fixed and variable production overheads, are allocated to work-in-progress and finished goods determined on a full absorption cost basis. Net realisable value is the estimated selling price in the ordinary course of business less estimated cost of completion and selling expenses.

n. Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any.

Freehold land is measured at cost and is not depreciated.

Cost includes purchase price, taxes and duties, labour cost and direct overheads for self-constructed assets and other direct costs incurred up to the date the asset is ready for its intended use.

Interest cost incurred for constructed assets is capitalised up to the date the asset is ready for its intended use, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

Depreciation is provided on the Straight Line Method (SLM) over the estimated useful lives of the assets considering the nature, estimated usage, operating conditions, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Taking into account these factors, the Company has decided to retain the useful life hitherto adopted for various categories of property, plant and equipments, which are different from those prescribed in Schedule II of the Act. Estimated useful lives of assets are as follows:

	Estimated useful life (years)
Buildings, Roads, Bridge and culverts	4 to 60
Plant, machinery and equipment	8 to 20
Computers and other IT assets	4 to 6
Vehicles	4 to 10
Furniture, fixtures and office appliances	5 to 15

The useful lives is reviewed at least at each year end. Changes in expected useful lives are treated as change in accounting estimates.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

o. Other intangible assets

Intangible assets purchased are measured at cost less accumulated amortisation and accumulated impairment, if any.

Amortisation is provided on a straight-line basis over estimated useful lives of the intangible assets as per details below:

	Estimated amortisation period
Technological know-how	8 to 10 years
Software	4 years

The amortisation period for intangible assets with finite useful lives is reviewed at least at each year-end. Changes in expected useful lives are treated as changes in accounting estimates.

Internally generated intangible asset

Research costs are charged to the statement of Profit and Loss in the year in which they are incurred.

Product development costs incurred on new vehicle platform, engines, transmission and new products are recognised as intangible assets, when feasibility has been established, the Company has committed technical, financial and other resources to complete the development and it is probable that asset will generate future economic benefits.

The costs capitalised include the cost of materials, direct labour and directly attributable overhead expenditure incurred up to the date the asset is available for use.

Interest cost incurred is capitalised up to the date the asset is ready for its intended use, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings if no specific borrowings have been incurred for the asset.

Product development costs is amortised on a straight line basis over a period of 24 months to 120 months.

Notes Forming Part of Financial Statements

Product development expenditure is measured at cost less accumulated amortisation and accumulated impairment, if any.

p. Goodwill

Cash generating units to which goodwill is allocated are tested for impairment annually at each balance sheet date, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to that unit and then to the other assets of the unit pro rata on the basis of carrying amount of each asset in the unit. Goodwill impairment loss recognised is not reversed in subsequent period.

q. Leases [refer note 2 (z) (i)]

The Company determines that a contract is or contains a lease, if the contract conveys right to control the use of an identified asset for a period of time in exchange for a consideration. At the inception of a contract which is or contains a lease, the Company recognises lease liability at the present value of the future lease payments for non-cancellable period of a lease which is not short term in nature except for lease of low value items. The future lease payments for such non-cancellable period is discounted using the Company's incremental borrowing rate. Lease payments include fixed payments, i.e. amounts expected to be payable by the Company under residual value guarantee, the exercise price of a purchase option if the Company is reasonably certain to exercise that option and payment of penalties for terminating the lease if the lease term considered reflects that the Company shall exercise termination option. The Company also recognises a right of use asset which comprises of amount of initial measurement of the lease liability, any initial direct cost incurred by the Company and estimated dilapidation costs.

Right of use assets is amortised over the period of lease.

Payment made towards short term leases (leases for which non-cancellable term is 12 months or lesser) and low value assets (lease of assets worth less than ₹0.03 crores) are recognised in the statement of Profit and Loss as rental expenses over the tenor of such leases.

r. Impairment

At each balance sheet date, the Company assesses whether there is any indication that any property, plant and equipment and intangible assets with finite lives may be impaired. If any such impairment exists the recoverable amount of an asset is estimated to determine the extent of impairment, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Intangible assets not yet available for use, are tested for impairment annually at each balance sheet date, or earlier, if there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of Profit and Loss.

s. Employee benefits

i) Gratuity

Tata Motors Limited and its Joint operations have an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump-sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 to 30 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. Tata Motors Limited makes annual contributions to gratuity funds established as trusts. Tata Motors Limited account for the liability for gratuity benefits payable in the future based on an actuarial valuation.

ii) Superannuation

Tata Motors Limited have two superannuation plans, a defined benefit plan and a defined contribution plan. An eligible employee on April 1, 1996 could elect to be a member of either plan.

Employees who are members of the defined benefit superannuation plan are entitled to benefits depending on the years of service and salary drawn. The monthly pension benefits after retirement range from 0.75% to 2% of the annual basic salary for each year of service. Tata Motors Limited account for superannuation benefits payable in future under the plan based on an actuarial valuation.

With effect from April 1, 2003, this plan was amended and benefits earned by covered employees have been protected as at March 31, 2003. Employees covered by this plan are prospectively entitled to benefits computed on a basis that ensures that the annual cost of providing the pension benefits would not exceed 15% of salary.

During the year ended March 31, 2015, the employees covered by this plan were given a one-time option to exit from the plan prospectively. Furthermore, the employees who opted for exit were given one- time option to withdraw accumulated balances from the superannuation plan.

Notes Forming Part of Financial Statements

The Company maintains a separate irrevocable trust for employees covered and entitled to benefits. The Company contributes up to 15% or ₹1,50,000 whichever is lower of the eligible employee's salary to the trust every year. The Company recognises such contribution as an expense when incurred and has no further obligation beyond this contribution.

iii) Bhavishya kalyan yojana (BKY)

Bhavishya Kalyan Yojana is an unfunded defined benefit plan for employees of Tata Motors Limited. The benefits of the plan include pension in certain cases, payable up to the date of normal superannuation had the employee been in service, to an eligible employee at the time of death or permanent disablement, while in service, either as a result of an injury or as certified by the appropriate authority. The monthly payment to dependents of the deceased/disabled employee under the plan equals 50% of the salary drawn at the time of death or accident or a specified amount, whichever is greater. Tata Motors Limited account for the liability for BKY benefits payable in the future based on an actuarial valuation.

iv) Provident fund and family pension

In accordance with Indian law, eligible employees of Tata Motors Limited and its Joint operations are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently 12% of employees' salary). The contributions, as specified under the law, are made to the provident fund and pension fund set up as an irrevocable trust by Tata Motors Limited for its employees. The interest rate payable to the members of the trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company. The liability in respect of the shortfall of interest earnings of the Fund is determined on the basis of an actuarial valuation.

Given the investment pattern prescribed by the authorities, most investments of provident fund have historically been in debt securities, thereby giving secure returns. However, during the year ended March 31, 2020, due to a ratings downgrade and potential bond default of some of the companies, the total liability of principal and interest guarantee has been actuarially valued as a defined benefit.

v) Post-retirement medicare scheme

Under this unfunded scheme, employees of Tata Motors Limited receive medical benefits subject to certain limits on amounts of benefits, periods after retirement and types of benefits, depending on their grade and location at the time of retirement. Employees separated from the Company as part of an

Early Separation Scheme, on medical grounds or due to permanent disablement are also covered under the scheme. Tata Motors Limited account for the liability for post-retirement medical scheme based on an actuarial valuation.

vi) Compensated absences

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilised leave at each balance sheet date on the basis of an independent actuarial valuation.

vii) Remeasurement gains and losses

Remeasurement comprising actuarial gains and losses, the effect of the asset ceiling and the return on assets (excluding interest) relating to retirement benefit plans, are recognised directly in other comprehensive income in the period in which they arise. Remeasurement recorded in other comprehensive income is not reclassified to statement of Profit and Loss.

Actuarial gains and losses relating to long-term employee benefits are recognised in the statement of Profit and Loss in the period in which they arise.

viii) Measurement date

The measurement date of retirement plans is March 31.

ix) The present value of the defined benefit liability and the related current service cost and past service cost are measured using projected unit credit method.

t. Share based payments

The Company recognises compensation expense relating to share based payments in accordance with Ind AS 102 Share-based Payment. Stock options granted by the Company to its employees are accounted as equity settled options. Accordingly, the estimated fair value of options granted that is determined on the date of grant, is charged to statement of Profit and Loss on a straight line basis over the vesting period of options which is the requisite service period, with a corresponding increase in equity.

u. Dividends

Any dividend declared by Tata Motors Limited is based on the profits available for distribution as reported in the statutory financial statements of Tata Motors Limited (standalone) prepared in accordance with Generally Accepted Accounting Principles in India or Indian GAAP or Ind AS. Indian law permits the declaration and payment of dividend out of profits for the year or previous financial year(s) as stated in the statutory financial statements of Tata Motors Limited (Standalone) prepared in accordance with Generally Accepted Accounting Principles in India, or Ind AS after providing for depreciation in accordance with the provisions of Schedule II to the Companies Act.

Notes Forming Part of Financial Statements

However, in the absence or inadequacy of the said profits, it may declare dividend out of free reserves, subject to certain conditions as prescribed under the Companies (Declaration and Payment of Dividend) Rules, 2014. Accordingly, in certain years the net income reported in these financial statements may not be fully distributable. The amount available for distribution is ₹ Nil as at March 31, 2020 (₹ Nil as at March 31, 2019)

v. Segments

The Company primarily operates in the automotive segment. The automotive segment comprises two reportable segments i.e commercial vehicles and passenger vehicles.

w. Investments in subsidiaries, Joint Ventures and Associates

Investments in subsidiaries, Joint Ventures and Associates are measured at cost as per Ind AS 27 – Separate Financial Statements.

x. Financial instruments

i) Classification, initial recognition and measurement:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets other than equity instruments are classified into categories: financial assets at fair value through profit and loss and at amortised cost. Financial assets that are equity instruments are classified as fair value through profit and loss or fair value through other comprehensive income. Financial liabilities are classified into financial liabilities at fair value through profit and loss and other financial liabilities.

Financial instruments are recognised on the balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Initially, a financial instrument is recognised at its fair value. Transaction costs directly attributable to the acquisition or issue of financial instruments are recognised in determining the carrying amount, if it is not classified as at fair value through profit and loss. Subsequently, financial instruments are measured according to the category in which they are classified.

Financial assets at amortised cost: Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortised cost using the effective interest method less any impairment losses.

Equity investments at fair value through other comprehensive income: These include financial assets that are equity instruments and are designated as such upon initial recognition irrevocably. Subsequently, these are measured at fair value and changes therein are recognised directly in other comprehensive income, net of applicable income taxes.

Dividends from these equity investments are recognised in the statement of Profit and Loss when the right to receive payment has been established.

When the equity investment is derecognised, the cumulative gain or loss in equity is transferred to retained earnings.

Financial assets at fair value through profit and loss: Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognised in profit and loss.

Equity instruments: An equity instrument is any contract that evidences residual interests in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Financial liabilities at fair value through profit and loss: Derivatives, including embedded derivatives separated from the host contract, unless they are designated as hedging instruments, for which hedge accounting is applied, are classified into this category. These are measured at fair value with changes in fair value recognised in the statement of Profit and Loss.

Financial guarantee contracts: These are initially measured at their fair values and, are subsequently measured at the higher of the amount of loss allowance determined or the amount initially recognised less, the cumulative amount of income recognised.

Other financial liabilities: These are measured at amortised cost using the effective interest method.

ii) Determination of fair value:

The fair value of a financial instrument on initial recognition is normally the transaction price (fair value of the consideration given or received). Subsequent to initial recognition, the Company determines the fair value of financial instruments that are quoted in active markets using the quoted bid prices (financial assets held) or quoted ask prices (financial liabilities held) and using valuation techniques for other instruments. Valuation techniques include discounted cash flow method and other valuation models.

Notes Forming Part of Financial Statements

iii) **Derecognition of financial assets and financial liabilities:**

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Financial liabilities are derecognised when these are extinguished, that is when the obligation is discharged, cancelled or has expired.

iv) **Impairment of financial assets:**

The Company recognises a loss allowance for expected credit losses on a financial asset that is at amortised cost. Loss allowance in respect of financial assets is measured at an amount equal to life time expected credit losses and is calculated as the difference between their carrying amount and the present value of the expected future cash flows discounted at the original effective interest rate.

y. **Hedge accounting:**

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Company designates these forward contracts in a cash flow hedging relationship by applying the hedge accounting principles.

These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated and effective as hedges of future cash flows are recognised in other comprehensive income (net of tax) and the ineffective portion is recognised immediately in the statement of Profit and Loss. Amounts accumulated in equity are reclassified to the statement of Profit and Loss in the periods in which the forecasted transactions occurs.

For forwards and options, forward premium and the time value are not considered part of the hedge. These are treated as cost of hedge and the changes in fair value attributable to forward premium is recognised in the other comprehensive income along with the changes in fair value determined to be effective portion of the hedge.

Effective portion of fair value changes of interest rate swaps that are designated as hedges against interest rate risk arising from floating rate debt are recognised in other comprehensive income.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecast transactions, any cumulative gain or loss on the hedging instrument recognised in equity is retained there until the forecast transaction occurs.

If the forecast transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is immediately transferred to the statement of Profit and Loss for the year.

z. **Recent accounting pronouncements**

i) **New accounting pronouncements adopted by the Company during the current financial year**

Ind AS 116 – Leases (refer note 4- Right of use assets)

The Company adopted Ind AS 116 with effect from April 1, 2019. In accordance with Ind AS 116, at the inception of a contract, the Company assessed whether the contract is or contains a lease.

The Company used following practical expedients on date of initial application of Ind AS 116.

1. With leases previously classified as operating leases according to Ind AS 17, the lease liability was measured at the present value of the outstanding lease payments, discounted by the incremental borrowing rate at April 1, 2019. The respective right-of-use asset was recognised at an amount equal to the lease liability;
2. Regardless of their original lease term, leases for which the lease term ends latest on March 31, 2020, were recognised as short-term leases;
3. At the date of initial application, the measurement of a right-of-use asset excluded the initial direct costs; and
4. Hindsight was considered when determining the lease term if the contract contains options to extend or terminate the leases.

Lease payments of short term leases and leases of low value items are recognized as expense equally over the period of lease. Any lease for which non-cancellable period is less than 12 months is classified as short term lease. Any lease for an asset whose initial value is less than ₹0.03 crores is classified as a low value item.

Amendments issued by MCA to existing standards

The Company adopted following amendments issued by MCA effective from financial year beginning April 1, 2019

Notes Forming Part of Financial Statements

i) Amendments to Ind AS 12, Income Taxes - Deferred taxes on Dividends and uncertain tax treatment

An entity is required to create a corresponding liability for payment of Dividend Distribution Tax (DDT) when it recognises a liability to pay a dividend. The liability for DDT shall be recorded in statement of profit & loss, other comprehensive income or equity, as the case may be. Currently, the Company is recognizing dividend distribution tax on dividends paid to Shareholders in the statement of changes in equity, as per the amendment, the Company will recognize dividend distribution tax on dividend distributed to Shareholders as income tax expense in its statement of profit or loss.

Another amendment relates to tax consequence of an item whose tax treatment is uncertain. Tax treatment of an item is considered as uncertain when there is uncertainty whether the relevant taxation authority will accept the tax treatment of that item or not. For example, if an entity has not included a particular income in taxable profit, it will be considered as uncertain tax treatment if its acceptability by taxation authority is uncertain. The amendment has been brought by introducing a new Appendix C to Ind AS 12.

If there is uncertainty over tax treatment of an item:

- An entity should determine an approach or method that predicts the resolution of the uncertainty. Based on the approach, the entity shall determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments.
- It shall assess whether it is probable that the taxation authority will accept the uncertain tax treatment, assuming that the authority has full right to examine the treatment and has full knowledge of all related information.
- If it is probable that the taxation authority will accept the tax treatment, there will be no impact on the amount of taxable profits/losses, tax bases, unused tax losses/credits and tax rates. In vice-versa case, the entity shall show the effect of the uncertainty for each uncertain tax treatment on amount of related aforesaid items by using either the most likely outcome or the expected outcome of the uncertainty.

ii) Amendments to Ind AS 109, Financial Instruments: Prepayment of loans

The amendments notified in Ind AS 109 pertain to classification of a financial instruments with prepayment feature with negative compensation. Negative compensation arises where the terms of the contract of the financial instrument permit the holder to make repayment or permit the lender or issuer to put the instrument to the borrower for repayment before the maturity at an amount less than the unpaid amounts of principal and interest. Earlier, there was no guidance on classification of such instruments.

According to the amendments, these types of instruments can be classified as measured at amortised cost, or measured at fair value through profit or loss, or measured at fair value through other comprehensive income by the lender or issuer if the respective conditions specified under Ind AS 109 are satisfied. Similarly, the holder may classify them either measured at fair value through profit or loss or measured at amortised cost in accordance with conditions of Ind AS 109.

iii) Amendments to Ind AS 19, Employee Benefits: Changes in Employee benefit plan

When a change to a plan by way of either an amendment, curtailment or settlement takes place, Ind AS 19 requires a Company to remeasure its net defined benefit liability or asset.

The amendments to Ind AS 19 require a Company to use the updated assumptions from this remeasurement to determine current service cost and net interest for the remainder of the reporting period after the change to the plan. Until now, Ind AS 19 did not specify how to determine these expenses for the period after the change to the plan.

iv) Amendments to Ind AS 28, Investments in Associates and Joint Ventures

Ind AS 109 excludes interest in associates and joint ventures that are accounted for in accordance with Ind AS 28, Investments in Associates and Joint Ventures from its scope. This amendment to Ind AS 28 clarifies that Ind AS 109 should be applied to financial instruments, including long-term interests in associates and joint venture, that, in substance, form part of an entity's net investment in associate or joint venture, to which the equity method is not applied.

There were no significant impact on the Company's financial statements upon adoption of the above amendments issued by MCA.

- a) Building include **₹8,631.00** (as at March 31, 2019 **₹8,631.00**) being value of investments in shares of Co-operative Housing Societies.
b) Land and Buildings include **₹829.39 crores** (as at March 31, 2019 **₹525.80 crores**) for which transfer of title is pending.

Notes Forming Part of Financial Statements

4 (a). RIGHT OF USE ASSETS

On transition to Ind AS 116, the Company recognized right of use assets for leases of all assets, other than low value items or which are short term in nature. Lease liabilities were recognized for all such right of use assets equivalent to the amount of discounted value of all future lease payments. The reconciliation of the Company's commitment towards all its future minimum rental payments under non cancellable operating leases as at March 31, 2019 and lease liability recognized as per Ind AS 116 as at April 1, 2019 is as follows:

	(₹ in crores)
Future minimum rental payments under non cancellable operating leases as at March 31, 2019	32.20
Operating leases with renewal and termination options, others, etc. recorded on transition	495.21
Gross lease liabilities for former operating leases as at April 1, 2019	527.41
Discounting impact	(46.75)
Lease liabilities for former operating leases as at April 1, 2019	480.66
Present value of finance lease liabilities as at March 31, 2019	8.71
Total lease liabilities as at April 1, 2019	489.37

When measuring lease liability, the Group discounted lease payments using its incremental borrowing rate at April 1, 2019. The weighted-average rate applied is 8.79 %.

The following amounts are included in the Balance Sheet as at March 31, 2020: (₹ in crores)

Current lease liabilities	83.30
Non-current lease liabilities	522.24
Total lease liabilities	605.54

The following amounts are recognised in the statement of profit and loss for the year ended March 31, 2020: (₹ in crores)

Interest expense on lease liabilities	31.40
Variable lease payment not included in the measurement of lease liabilities	2.98
Expenses related to short-term leases	15.12
Expenses related to low-value assets, excluding short-term leases of low-value assets	3.85

	(₹ in crores)

The Company has committed towards leases of plant ,machinery and equipments which has not yet commenced, for **₹171.00 crores** as on March 31, 2020

Note:

The Company has adopted Ind AS 116 with modified retrospective approach, with effect from April 1, 2019. Accordingly, the comparative periods have not been restated. There is no impact of Ind AS 116 adoption to the retained earnings as at April 1, 2019. The Company has recognized ₹489.37 crores as right of use assets and the corresponding lease liability on the date of transition i.e. April 1, 2019. Further, an amount of ₹124.31 crores has been reclassified from non-current/current assets to right of use assets for prepaid operating lease rentals. In the financial statements for the year ended March 31, 2020, the nature of expenses in respect of operating leases has changed from lease rent in previous period to amortisation for the right of use asset and finance cost for interest accrued on lease liability. In respect of leases that were classified as finance lease, applying Ind AS 17, an amount of ₹260.20 crores has been reclassified from property, plant and equipment to right of use assets. There is no material impact on loss after tax and earnings per share for the year ended March 31, 2020, on adoption of Ind AS 116.

Notes Forming Part of Financial Statements

4 (b) LEASES UNDER IND AS 17

The Company has taken land, buildings, plant and equipment, computers and furniture and fixtures under operating and finance leases. The following is the summary of future minimum lease rental payments under non-cancellable operating leases and finance leases entered into by the Company:

	(₹ in crores)		
	As at March 31, 2019		
	Operating	Finance	
	Minimum Lease Payments	Minimum Lease Payments	Present value of minimum lease payments
Not later than one year	0.63	5.40	3.65
Later than one year but not later than five years	2.48	5.59	3.95
Later than five years	29.09	1.26	1.11
Total minimum lease commitments	32.20	12.25	8.71
Less: future finance charges		(3.54)	
Present value of minimum lease payments		8.71	
Included in the financial statements as:			
Lease liabilities - current			3.64
Lease liabilities - non-current			5.07
			8.71

Total operating lease rent expenses were **₹61.35 crores** for the year ended March 31, 2019.

The Company has given plant and equipment under finance leases. The following is the summary of future minimum lease payments receivables for assets given on finance leases by the Company:

	As at March 31, 2019	
	Minimum lease payments receivables	Present value of minimum lease payments receivables
Not later than one year	32.11	12.24
Later than one year but not later than five years	163.63	105.20
Total minimum lease payments receivables	195.74	117.44
Less: unearned finance income	(78.30)	
Present value of minimum lease payments receivables	117.44	
Included in the financial statements as:		
Other financial assets - current (refer note 14)		12.24
Other financial assets - non-current (refer note 13)		105.20
		117.44

Balance at the end	2,739.29	4,139.63

Notes Forming Part of Financial Statements

6. IMPAIRMENT OF PASSENGER VEHICLE SEGMENT AND OTHER PROVISIONS

(a) Impairment of Passenger Vehicle segment

The Company assessed recoverable value for the Passenger Vehicle segment (TML standalone) which represent a separate cash-generating unit (CGU) for the Company as at March 31, 2020, due to change in market conditions. The recoverable value of ₹9,120.31 crores was determined by Fair Value less Cost of Disposal ('FVLCD'), which was higher than the Value in Use ('VIU') of the relevant assets of the CGU. The recoverable amount was lower than the carrying value of the CGU of ₹10,538.95 crores and this resulted in an impairment charge of ₹1,418.64 crores recognised within 'Exceptional items' as at March 31, 2020.

CGU's FVLCD has been valued using Comparable Company Market Multiple method (CCM). The average of enterprise value to sales multiple of Comparable Companies applied to actual sales of the CGU for years ended March 31, 2019, March 31, 2020 and forecasted sales for the year ended March 31, 2021 has been considered as the FVLCD as per CCM.

The approach and key (unobservable) assumptions used to determine the CGU's FVLCD were as follows:

	As at March 31, 2020
Enterprise value to sales multiple	0.75

The impairment loss of ₹1,418.64 crores has been allocated initially to the carrying value of non-current assets on a pro-rated basis as follows:

	(₹ in crores) As at March 31, 2020
Property, plant and equipment [refer note 3]	634.15
Capital work-in-progress	71.21
Right of use assets [refer note 4 (a)]	45.94
Other intangible assets [refer note 5 (a)]	542.00
Intangible assets under development [refer note 5 (b)]	125.34
Total	1,418.64

Sensitivity to key assumptions

The change in the following assumptions used in the impairment review would, in isolation, lead to an increase to the aggregate impairment loss recognised as at March 31, 2020 (although it should be noted that these sensitivities do not take account of potential mitigating actions):

	(₹ in crores)
Decrease in Enterprise value (EV) to sales multiple by 10%	912.00

(b) Other provisions

During the quarter and year ended March 31, 2020, a provision has been recognized for certain supplier contracts ranging from 5 to 10 years, which have become onerous, as the Company estimates that it will procure lower quantities than committed and the costs will exceed the future economic benefit.

- (h) During the year ended March 31, 2020, the Company has allotted 20,16,23,407 Ordinary Shares at a price of ₹150 per Ordinary Share aggregating to ₹3,024 crores and 23,13,33,871 Convertible Warrants ('Warrants'), each carrying a right to subscribe to one Ordinary Share per Warrant, at a price of ₹150 per Warrant ('Warrant Price'), aggregating to ₹3,470 crores on a preferential basis to Tata Sons Private Limited. An amount equivalent to 25% of the Warrant Price was paid at the time of subscription and allotment of each Warrant and the balance 75% of the Warrant Price shall be payable by the Warrant holder against each Warrant at the time of allotment of Ordinary Shares pursuant to exercise of the options attached to Warrant(s) to subscribe to Ordinary Share(s). The amount of ₹3,892 crores has been received and is to be utilized for repayment of debt, meeting future funding requirements and other general corporate purposes of the Company and its subsidiaries. The Company has utilised amount of ₹2,762 crores as at March 31, 2020.

Notes Forming Part of Financial Statements

- (i) The entitlements to **4,92,559** Ordinary shares of ₹2 each (as at March 31, 2019 : 4,94,352 Ordinary shares of ₹2 each) and **2,33,214** 'A' Ordinary shares of ₹2 each (as at March 31, 2019: 2,33,739 'A' Ordinary shares of ₹2 each) are subject matter of various suits filed in the courts / forums by third parties for which final order is awaited and hence kept in abeyance.

(j) Rights, preferences and restrictions attached to shares :

(i) Ordinary shares and 'A' Ordinary shares both of ₹ 2 each :

- The Company has two classes of shares – the Ordinary shares and the 'A' Ordinary shares both of ₹2 each (together referred to as shares). In respect of every Ordinary share (whether fully or partly paid), voting rights shall be in the same proportion as the capital paid up on such Ordinary share bears to the total paid up Ordinary share capital of the Company. In case of every 'A' Ordinary share, if any resolution is put to vote on a poll or by postal ballot at any general meeting of Shareholders, the holder shall be entitled to one vote for every ten 'A' Ordinary shares held as per the terms of its issue and if a resolution is put to vote on a show of hands, the holder of 'A' Ordinary shares shall be entitled to the same number of votes as available to holders of Ordinary shares.
- The dividend proposed by the Board of Directors is subject to the approval of the Shareholders in the ensuing Annual General Meeting. Further, the Board of Directors may also declare an interim dividend. The holders of 'A' Ordinary shares shall be entitled to receive dividend for each financial year at five percentage point more than the aggregate rate of dividend declared on Ordinary shares for that financial year.
- In the event of liquidation, the Shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholdings.

(ii) American Depository Shares (ADSs) and Global Depository Shares (GDSs) :

- Each ADS and GDS underlying the ADR and GDR respectively represents five Ordinary shares of ₹2 each. A holder of ADS and GDS is not entitled to attend or vote at Shareholders meetings. An ADS holder is entitled to issue voting instructions to the Depository with respect to the Ordinary shares represented by ADSs only in accordance with the provisions of the Company's ADSs deposit agreement and Indian Law. The depository for the ADSs and GDSs shall exercise voting rights in respect of the deposited shares by issue of an appropriate proxy or power of attorney in terms of the respective deposit agreements.
- Shares issued upon conversion of ADSs and GDSs will rank pari passu with the existing Ordinary shares of ₹2 each in all respects including entitlement of the dividend declared.

(k) Number of shares held by each shareholder holding more than 5 percent of the issued share capital :

	As at March 31, 2020		As at March 31, 2019	
	% of Issued Share Capital	No. of Shares	% of Issued Share Capital	No. of Shares

Hedging reserve	(168.55)	(26.40)
Cost of hedging reserve	(42.79)	6.45
TOTAL	(267.34)	42.31

(B) NOTES TO RESERVES

a) Capital redemption reserve

The Indian Companies Act, 2013 (the "Companies Act") requires that where a Company purchases its own shares out of free reserves or securities premium account, a sum equal to the nominal value of the shares so purchased shall be transferred to a capital redemption reserve account and details of such transfer shall be disclosed in the balance sheet. The capital redemption reserve account may be applied by the Company, in paying up unissued shares of the Company to be issued to Shareholders of the Company as fully paid bonus shares. Tata Motors Limited established this reserve pursuant to the redemption of preference shares issued in earlier years.

b) Debenture redemption reserve

The Companies Act requires that where a Company issues debentures, it shall create a debenture redemption reserve out of profits of the Company available for payment of dividend. The Company is required to maintain a debenture redemption reserve of 25% of the value of debentures issued, either by a public issue or on a private placement basis. The amounts credited to the debenture redemption reserve may not be utilised by the Company except to redeem debentures. No debenture redemption reserve is required for debenture issued after August 16, 2019.

Notes Forming Part of Financial Statements

c) Securities premium

The amount received in excess of face value of the equity shares is recognised in Securities Premium.

d) Retained earnings

Retained earnings are the profits that the Company has earned till date.

e) Capital reserve

The capital reserve represents the excess of the identifiable assets and liabilities over the consideration paid.

f) Dividends

The final dividend is recommended by the Board of Directors and is recorded in the books of accounts upon its approval by the Shareholders. For the year ended March 31, 2020 and 2019, considering the accumulated losses in the Tata Motors Limited Standalone, no dividend was permitted to be paid to the members, as per the Companies Act, 2013 and the rules framed thereunder.

g) Share-based payments reserve

Share-based payments reserve represents amount of fair value, as on the date of grant, of unvested options and vested options not exercised till date, that have been recognised as expense in the statement of profit and loss till date.

TOTAL	4,384.31	4,273.10

Share based payments

The Company has allotted share based incentives to certain employees during the year ended March 31, 2019, under Tata Motors Limited Employee Stock Options Scheme 2018 approved by Nomination and Remuneration Committee (NRC). As per the scheme, the number of shares that will vest is conditional upon certain performance measures determined by NRC. The performance is measured over vesting period of the options granted which ranges from 3 to 5 years. The performance measures under this scheme include growth in sales, earnings and free cash flow. The options granted under this scheme is exercisable by employees till one year from date of its vesting. The Company has granted options at an exercise price of ₹345/-. Option granted will vest equally each year starting from 3 years from date of grant up to 5 years from date of grant. Number of shares that will vest range from 0.5 to 1.5 per option granted depending on performance measures.

	Year ended March 31, 2020	Year ended March 31, 2019
Options outstanding at the beginning of the Year	78,12,427	-
Granted during the year	-	78,12,427
Forfeited/Expired during the year	(5,89,530)	-
Exercised during the year	-	-
Outstanding at the end of the Year	72,22,897	78,12,427
Maximum/Minimum number of shares to be issued for outstanding options (conditional on performance measures)	1,08,34,346/36,11,449	1,17,18,641/39,06,214

The Company has estimated fair value of options using Black Scholes model. The following assumptions were used for calculation of fair value of options granted during the year ended March 31, 2020.

Assumption factor	Estimate	
	Year ended March 31, 2020	Year ended March 31, 2019
Risk free rate	7%-8%	7%-8%
Expected life of option	3-5 years	4-6 years
Expected volatility	33%- 37%	33%-37%

36. FINANCE COSTS

	(₹ in crores)	
	Year ended March 31, 2020	Year ended March 31, 2019
(a) Interest	1,973.48	1,743.47
Add: Exchange fluctuation considered as interest cost	56.35	38.10
Less: Transferred to capital account	(423.76)	(438.79)
	1,606.07	1,342.78
(b) Discounting charges	366.93	450.79
TOTAL	1,973.00	1,793.57

Note: The weighted average rate for capitalisation of interest relating to general borrowings was approximately 7.52% and 7.87% for the years ended March 31, 2020 and 2019, respectively.

(c) Product development/Engineering expenses	(259.82)	(161.61)
TOTAL	(1,169.46)	(1,093.11)

Notes Forming Part of Financial Statements

39. EXCEPTIONAL ITEMS

- (a) Exceptional amount of **₹(73.03) crores** and ₹ 180.66 crores during the year ended March 31, 2020 and 2019, respectively are related to write off/(reversal) of provision for impairment (net) of certain capital work-in-progress and intangibles under development.
- (b) During the year ended March 31, 2019, the Company has sold investment in TAL Manufacturing Solutions Limited to Tata Advanced Systems Ltd. (TASL).
- (c) The Company has entered into an agreement for transfer of its Defence undertaking, which had a value of ₹ 209.27 crores as at December 31, 2017 to Tata Advanced Systems Ltd. (transferee Company), for an upfront consideration of ₹100 crores and a future consideration of 3% of the revenue generated from identified Specialized Defence Projects for upto 15 years from the financial year ending March 31, 2020 subject to a maximum of ₹1,750 crores. The future consideration of 3% of revenue depends on future revenue to be generated from the said projects by the transferee Company. On account of the same, the Company has recognized a provision of ₹109.27 crores, during the quarter ended March 31, 2019, which may get reversed in future once projects start getting executed from FY 2020 onwards. The assets related to defence undertaking are classified as "Held for Sale", pending approvals as they meet the criteria laid out under Ind AS 105.

40. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Litigation

The Company is involved in legal proceedings, both as plaintiff and as defendant. There are claims which the Company does not believe to be of material nature, other than those described below.

Income Tax

The Company has ongoing disputes with income tax authorities relating to tax treatment of certain items. These mainly include disallowed expenses, the tax treatment of certain expenses claimed by the Company as deductions and the computation of, or eligibility of, the Company's use of certain tax incentives or allowances.

Most of these disputes and/or disallowances, being repetitive in nature, have been raised by the income tax authorities consistently in most of the Years.

The Company has a right of appeal to the Commissioner of Income Tax (Appeals), or CIT (A), the Dispute Resolution Panel, or DRP, and to the Income Tax Appellate Tribunal, or ITAT, against adverse decisions by the assessing officer, DRP or CIT (A), as applicable. The income tax authorities have similar rights of appeal to the ITAT against adverse decisions by the CIT (A) or DRP. The Company has a further right of appeal to the Bombay High Court or the Hon'ble Supreme Court of India against adverse decisions by the appellate authorities for matters involving substantial question of law. The income tax authorities have similar rights of appeal.

As at March 31, 2020, there are matters and/or disputes pending in appeal amounting to **₹90.21 crores** (₹58.77 crores as at March 31, 2019).

Customs, Excise Duty and Service Tax

As at March 31, 2020, there are pending litigation for various matters relating to customs, excise duty and service taxes involving demands, including interest and penalties, of **₹603.87 crores** (₹907.78 crores as at March 31, 2019). These demands challenged the basis of valuation of the Company's products and denied the Company's claims of Central Value Added Tax, or CENVAT credit on inputs. The details of the demands for more than ₹20 crores are as follows:

As at March 31, 2020, the Excise Authorities have raised a demand and penalty of **₹268.27 crores** (₹243.24 crores as at March 31, 2019), due to the classification of certain chassis (as goods transport vehicles instead of dumpers) which were sent to automotive body builders by the Company, which the Excise Authorities claim requires the payment of the National Calamity Contingent Duty (NCCD). The Company has obtained a technical expert certificate on the classification. The appeal is pending before the Custom Excise & Service Tax Appellate Tribunal.

As at March 31, 2020, the Excise Authorities have confirmed demand & penalty totaling to **₹90.88 crores** (₹90.88 crores as at March 31, 2019) towards vehicles allegedly sold below cost of production with an intention to penetrate the market. The matter is being contested by the Company before Customs, Excise and Service Tax Appellate Tribunal.

Notes Forming Part of Financial Statements

The Excise Authorities had denied the Company's claim of a CENVAT credit of **₹53.39 crores** as at March 31, 2020 (₹81.51 crores as at March 31, 2019) on various inputs services like authorised service station services, erection, commissioning and installation services, common services etc. claimed by the Company from financial year 2006 to 2017. The matters are being contested by the Company before the Appellate Authorities.

As at March 31, 2020, the Excise Authorities have confirmed the demand and penalty totaling to **₹50.05 crores** (₹92.42 crores as at March 31, 2019) alleging undervaluation of products sold by the Company. The matter is being contested by the Company before appellate authorities.

As at March 31, 2020, demand and penalty totaling to **₹23.50 crores** (₹23.50 crores as at March 31, 2019) has been confirmed for alleged non-payment of service tax on services like event management services, authorised service station services, heat treatment services etc. The matter is being contested by the Company before appellate authorities.

The Excise Authorities are of the view that the Company had wrongly availed CENVAT credit amounting to **₹29.00 crores** as at March 31, 2020 (₹29.00 crores as at March 31, 2019) on various input services in relation to setting up of the factory in Singur. The Department was of the contention that since no manufacturing activity had taken place in Singur, the credit cannot be availed. The matter is contested in appeal.

Sales Tax/VAT

The total sales tax demands (including interest and penalty), that are being contested by the Company amount to **₹914.12 crores** as at March 31, 2020 (₹1,123.47 crores as at March 31, 2019). The details of the demands for more than ₹20 crores are as follows:

The Sales Tax Authorities have raised demand of **₹207.80 crores** as at March 31, 2020 (₹260.15 crores as at March 31, 2019) towards rejection of certain statutory forms for concessional lower/nil tax rate (Form F and Form C) on technical grounds and few other issues such as late submission, single form issued against different months / quarters dispatches / sales, etc. and denial of exemption from tax in absence of proof of export for certain years. The Company has contended that the benefit cannot be denied on technicalities, which are being complied with. The matter is pending at various levels.

The Sales Tax authorities have denied input tax credit and levied interest and penalty thereon due to varied reasons aggregating to **₹221.77 crores** as at March 31, 2020 (₹487.96 crores as at March 31, 2019). The reasons for disallowing credit was mainly due to Taxes not paid by Vendors, incorrect method of calculation of set off as per the department, alleging suppression of sales as per the department etc. The matter is contested in appeal.

Sales tax demand aggregating **₹25.25 crores** as at March 31, 2020 (₹80.02 crores as at March 31, 2019) has been raised by Sales Tax Authorities for non submission of Maharashtra Trial Balance. The matter is contested in appeal.

The Sales Tax authorities have raised demand for Check post/ Entry Tax liability at various states amounting to **₹65.81 crores** as at March 31, 2020 (₹64.14 as at March 31, 2019). The Company is contesting this issue.

The Sales Tax Authorities have raised demand of **₹148.84 crores** as at March 31, 2020 (₹Nil as at March 31, 2019) towards full CST liability on Chassis exported after enroot body building and interest thereon considering as CST sale. The Company has contended that the Company's manufacturing plant dispatching chassis for enroot body building to bodybuilders as bill to the Company and ship to bodybuilders is constituted as export sale after Chassis export. The matter is contested in appeal.

In case of one of the joint operation, the Sales Tax Authorities have held back the refund of VAT on debit notes raised for Take or Pay arrangements (TOP) totalling to **₹67.58 crores** (₹51.60 crores as at March 31, 2019). The department is of the view that TOP is not part of sale and hence tax to be paid. The matter is contested in appeal.

Other Taxes and Dues

Other amounts for which the Company may contingently be liable aggregate to **₹288.17 crores** as at March 31, 2020 (₹232.54 crores as at March 31, 2019). Following are the cases involving more than ₹20 crores:

The municipal authorities in certain states levy octroi duty (a local indirect tax) on goods brought inside the municipal limits at rates based on the classification of goods. Demands aggregating **₹61.65 crores** as at March 31, 2020 (₹61.65 crores as at March 31, 2019) had been raised demanding higher octroi duties on account of classification disputes relating to components purchased for the manufacture of vehicles and retrospective increase in octroi rates relating to past periods. The dispute relating to classification is presently pending before the Bombay High Court and the other dispute is pending before the Hon'ble Supreme Court of India.

As at March 31, 2020, property tax amounting to **₹109.14 crores** (₹63.81 crores as at March 31, 2019) has been demanded by the local municipal authorities in respect of vacant land of the Company in the plant in Pimpri (including residential land), Chinchwad and Chikhali. The Company had filed Special Leave Petition (SLP) before the Hon'ble Supreme Court of India against an unfavorable decision of the Bombay High Court. The Hon'ble Supreme Court of India had disposed of the SLP and remanded the matter back to the local municipal corporation for fresh adjudication. After fresh hearing, the municipal authority again passed the same order as it had passed earlier, which the Company has challenged before the Civil Court. The Civil Court has passed an injunction order restraining the municipal authority from taking any action of recovery.

Notes Forming Part of Financial Statements

As at March 31, 2020, Sales tax / VAT amounting to **₹34.08 crores** (₹ 32.47 crores as at March 31, 2019) has been demanded by local authorities on dealers in respect of spare parts used for carrying out warranty repairs. The dispute is pending before the Hon'ble Supreme Court of India.

As at March 31, 2020, possession tax amounting to **₹22.23 crores** (₹36.25 crores as at March 31, 2019) have been demanded in respect of motor vehicles in the possession of the manufacturer and the authorisation of trade certificate granted under the Central Motor Vehicle Rules, 1989. The matter is being contested before the Jharkhand High Court at Ranchi.

Other claims

The Hon'ble Supreme Court of India ('SC') by their order dated February 28, 2019, set out the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. There are interpretative challenges and considerable uncertainty, including estimating the amount retrospectively. Pending the directions from the EPFO, the impact for past periods, if any, is not ascertainable reliably and consequently no financial effect has been provided for in the financial statements. The Company has complied with this on a prospective basis, from the date of the SC order.

The Company has, consequent to an Order of the Hon'ble Supreme Court of India in the case of R.C.Gupta Ors. Vs Regional Provident Fund Organisation and Ors., evaluated the impact on its employee pension scheme and concluded that this is not applicable to the Company based on external legal opinion and hence it is not probable that there will be an outflow of resources.

Commitments

The Company has entered into various contracts with vendors and contractors for the acquisition of plant and machinery, equipment and various civil contracts of a capital nature amounting to **₹1,320.67 crores** as at March 31, 2020 (₹1,929.86 crores as at March 31, 2019), which are yet to be executed.

The Company has entered into various contracts with vendors and contractors for the acquisition of intangible assets of a capital nature amounting to **₹146.15 crores** as at March 31, 2020, (₹397.81 crores as at March 31, 2019), which are yet to be executed.

The Company has contractual obligation towards Purchase Commitment (net of provisions) for **₹ 1,374.00 crores** as at March 31, 2020.

41. EARNINGS PER SHARE ('EPS')

		Year ended March 31, 2020	Year ended March 31, 2019
(a) Profit/(loss) after tax	₹ crores	(7,289.63)	2,020.60
(b) The weighted average number of Ordinary shares for Basic EPS	Nos.	2,95,23,53,090	2,88,73,48,474
(c) The weighted average number of 'A' Ordinary shares for Basic EPS	Nos.	50,85,02,473	50,85,02,371
(d) The nominal value per share (Ordinary and 'A' Ordinary)	₹	2	2
(e) Share of profit / (loss) for Ordinary shares for Basic EPS	₹ crores	(6,218.57)	1,713.71
(f) Share of profit / (loss) for 'A' Ordinary shares for Basic EPS *	₹ crores	(1,071.06)	306.89
(g) Earnings per Ordinary share (Basic)	₹	(21.06)	5.94
(h) Earnings per 'A' Ordinary share (Basic)	₹	(21.06)	6.04
(i) Profit after tax for Diluted EPS	₹ crores	#	2,020.60
(j) The weighted average number of Ordinary shares for Basic EPS	Nos.	#	2,88,73,48,474
(k) Add: Adjustment for shares held in abeyance	Nos.	#	4,94,352
(l) Add: Adjustment for Options relating to warrants	Nos.	#	-
(m) The weighted average number of Ordinary shares for Diluted EPS	Nos.	#	2,88,78,42,826
(n) The weighted average number of 'A' Ordinary shares for Basic EPS	Nos.	#	50,85,02,371
(o) Add: Adjustment for 'A' Ordinary shares held in abeyance	Nos.	#	2,33,739
(p) The weighted average number of 'A' Ordinary shares for Diluted EPS	Nos.	#	50,87,36,110
(q) Share of profit for Ordinary shares for Diluted EPS	₹ crores	#	1,713.63
(r) Share of profit for 'A' Ordinary shares for Diluted EPS *	₹	#	306.97
(s) Earnings per Ordinary share (Diluted)	₹	(21.06)	5.94
(t) Earnings per 'A' Ordinary share (Diluted)	₹	(21.06)	6.04

* 'A' Ordinary Shareholders are entitled to receive dividend @ 5% points more than the aggregate rate of dividend determined by the Company on Ordinary Shares for the financial year.

Since there is a loss for the year ended March 31, 2020, potential equity shares are not considered as dilutive and hence Diluted EPS is same as Basic EPS.

Employee Stock options are not considered to be dilutive based on the average market price of ordinary shares during the period.

Warrants are considered as dilutive since the exercise price of ordinary shares is less than the average market price during the period. However, since there is a loss for the year ended March 31, 2020, potential warrants are not considered as dilutive and hence Diluted EPS is same as Basic EPS.

Notes Forming Part of Financial Statements

42. CAPITAL MANAGEMENT

The Company's capital management is intended to create value for Shareholders by facilitating the meeting of long-term and short-term goals of the Company.

The Company determines the amount of capital required on the basis of annual operating plans and long-term product and other strategic investment plans. The funding requirements are met through equity, non-convertible debentures, senior notes and other long-term/short-term borrowings. The Company's policy is aimed at combination of short-term and long-term borrowings.

The Company monitors the capital structure on the basis of total debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Total borrowings includes all long and short-term borrowings as disclosed in notes 24, 25 and 27 (a) to the financial statements. Equity comprises all components excluding (profit)/loss on cash flow hedges.

The following table summarises the capital of the Company:

	(₹ in crores)	
	As at March 31, 2020	As at March 31, 2019
Equity	18,598.99	22,182.47
Short-term borrowings and current maturities of long-term borrowings	10,668.26	4,719.82
Long-term borrowings	14,776.51	13,919.81
Total borrowings	25,444.77	18,639.63
Total capital (Debt + Equity)	44,043.76	40,822.10
Total equity as reported in balance sheet	18,387.65	22,162.52
Hedging reserve	168.55	26.40
Cost of Hedge reserve	42.79	(6.45)
Equity as reported above	18,598.99	22,182.47

Notes Forming Part of Financial Statements

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, Grouped into Level 1 to Level 3, as described below.

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of quoted equity shares, quoted corporate debt instruments and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e; as prices) or indirectly (i.e; derived from prices). This level of hierarchy include Company's over-the-counter (OTC) derivative contracts.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

There has been no transfers between Level 1, level 2 and level 3 for the year ended March 31, 2020 and 2019.

Costs of certain unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range. These investments in equity instruments are not held for trading. Instead, they are held for medium or long term strategic purpose. Upon the application of Ind AS 109, the Company has chosen to designate these investments in equity instruments at FVTOCI as the Directors believes this provides a more meaningful presentation for medium or long term strategic investments, than reflecting changes in fair value immediately in profit or loss.

Derivatives are fair valued using market observable rates and published prices together with forecast cash flow information where applicable.

(₹ in crores)

	As at March 31, 2020			
	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value				
(a) Investments	1,026.27	-	407.61	1,433.88
(b) Derivative assets	-	967.60	-	967.60
TOTAL	1,026.27	967.60	407.61	2,401.48
Financial liabilities measured at fair value				
(a) Derivative liabilities	-	279.48	-	279.48
TOTAL	-	279.48	-	279.48

	As at March 31, 2019			
	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value				
(a) Investments	1,445.54	-	393.21	1,838.75
(b) Derivative assets	-	392.00	-	392.00
TOTAL	1,445.54	392.00	393.21	2,230.75
Financial liabilities measured at fair value				
(a) Derivative liabilities	-	68.96	-	68.96
TOTAL	-	68.96	-	68.96

The following table provides an analysis of fair value of financial instruments that are not measured at fair value on recurring basis, Grouped into Level 1 to Level 3 categories:

(₹ in crores)

	As at March 31, 2020			
	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value				
(a) Investments	-	-	-	-
TOTAL	-	-	-	-
Financial liabilities not measured at fair value				
(a) Long-term borrowings (including Current maturities of long-term borrowings)	5,527.22	13,339.68	-	18,866.90
(b) Short-term borrowings	-	6,121.36	-	6,121.36
(c) Option premium accrual	-	397.41	-	397.41
TOTAL	5,527.22	19,858.45	-	25,385.67

Notes Forming Part of Financial Statements

	As at March 31, 2019			
	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value				
(a) Investments	-	-	-	-
TOTAL	-	-	-	-
Financial liabilities not measured at fair value				
(a) Long-term borrowings (including Current maturities of long-term borrowings)	3,544.16	11,485.96	-	15,030.12
(b) Short-term borrowings	-	3,617.72	-	3,617.72
TOTAL	3,544.16	15,103.68	-	18,647.84

The short-term financial assets and liabilities are stated at amortised cost which is approximately equal to their fair value.

The fair value of borrowings which have a quoted market price in an active market is based on its market price and for other borrowings the fair value is estimated by discounting expected future cash flows, using a discount rate equivalent to the risk-free rate of return, adjusted for the credit spread considered by the lenders for instruments of similar maturity.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, substantially for all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realised or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

Offsetting

Certain financial assets and financial liabilities are subject to offsetting where there is currently a legally enforceable right to set off recognised amounts and the Company intends to either settle on a net basis, or to realise the asset and settle the liability, simultaneously.

Certain derivative financial assets and financial liabilities are subject to master netting arrangements, whereby in the case of insolvency, derivative financial assets and financial liabilities will be settled on a net basis.

The following table discloses the amounts that have been offset, in arriving at the balance sheet presentation and the amounts that are available for offset only under certain conditions as at March 31, 2020:

						(₹ in crores)
	Gross amount recognised	Gross amount recognised as set off in the balance sheet	Net amount presented in the balance sheet	Amounts subject to an enforceable master netting arrangement		Net amount after offsetting
				Financial instruments	Cash collateral	
FINANCIAL ASSETS						
(a) Derivative financial instruments	967.60	-	967.60	(21.52)	-	946.08

(c) Financial risk management

In the course of its business, the Company is exposed primarily to fluctuations in foreign currency exchange rates, interest rates, equity prices, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

The Company has a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

- Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.
- Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

(i) Market risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

(a) Foreign currency exchange rate risk:

The fluctuation in foreign currency exchange rates may have potential impact on the income statement and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency.

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in U.S. dollar, Euro and GBP against the respective functional currencies of the Company.

The Company, as per its risk management policy, uses foreign exchange and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. Any weakening of the functional currency may impact the Company's cost of exports and cost of borrowings and consequently may increase the cost of financing the Company's capital expenditures.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using derivative financial instruments in accordance with its risk management policies.

The foreign exchange rate sensitivity is calculated for each currency by aggregation of the net foreign exchange rate exposure of a currency and a simultaneous parallel foreign exchange rates shift in the foreign exchange rates of each currency by 10%.

The exposure as indicated below is mitigated by some of the derivative contracts entered into by the Company as disclosed in (iv) derivative financial instruments and risk management below.

The following table sets forth information relating to foreign currency exposure (other than risk arising from derivatives disclosed at clause (iv) below) as of March 31, 2020:

	₹ in crores					
	U.S. dollar	Euro	GBP	ZAR	Others ¹	Total
Financial assets	1,369.00	8.67	44.12	24.42	10.90	1,457.11
Financial liabilities	9,136.47	349.69	281.98	5.88	28.09	9,802.11

¹ Others mainly include currencies such as the Russian ruble, Japanese yen, Swiss franc, Indonesian Rupiahs, Chinese Yuan, Thai bahts and Korean won.

Notes Forming Part of Financial Statements

10% appreciation/depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease/increase in the Company's net profit/(loss) before tax by approximately **₹145.71 crores** and **₹980.21 crores** for financial assets and financial liabilities respectively for the year ended March 31, 2020.

The following table sets forth information relating to foreign currency exposure (other than risk arising from derivatives disclosed at clause (iv) below) as of March 31, 2019:

	(₹ in crores)				
	U.S. dollar	Euro	GBP	THB	Others ²
Financial assets	382.70	26.61	96.32	22.64	11.83
Financial liabilities	6,337.49	270.76	169.38	8.70	36.80
					Total

2 Others mainly include currencies such as the Russian ruble, Japanese yen, Swiss franc, Australian dollars, South African rand and Korean won.

10% appreciation/depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease/increase in the Company's net profit/(loss) before tax by approximately **₹54.01 crores** and **₹682.31 crores** for financial assets and financial liabilities, respectively for the year ended March 31, 2019.

(Note: The impact is indicated on the profit/(loss) before tax basis.)

(b) Interest rate risk

Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rates. Any movement in the reference rates could have an impact on the Company's cash flows as well as costs.

The Company is subject to variable interest rates on some of its interest bearing liabilities. The Company's interest rate exposure is mainly related to debt obligations. The Company also uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations like short term loans.

As at March 31, 2020 and 2019, financial liability of **₹6,638.55 crores** and **₹5,176.20 crores**, respectively, was subject to variable interest rates. Increase/decrease of 100 basis points in interest rates at the balance sheet date would result in decrease/increase in profit/(loss) before tax of **₹66.39 crores** and **₹51.76 crores** for the year ended March 31, 2020 and 2019, respectively.

The model assumes that interest rate changes are instantaneous parallel shifts in the yield curve. Although some assets and liabilities may have similar maturities or periods to re-pricing, these may not react correspondingly to changes in market interest rates. Also, the interest rates on some types of assets and liabilities may fluctuate with changes in market interest rates, while interest rates on other types of assets may change with a lag.

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

(Note: The impact is indicated on the profit/(loss) before tax basis.)

(c) Equity Price risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities.

The fair value of some of the Company's investments measured at fair value through other comprehensive income exposes the Company to equity price risks. These investments are subject to changes in the market price of securities. The fair value of Company's investment in quoted equity securities as of March 31, 2020 and 2019 was **₹140.96 crores** and **₹271.07 crores**, respectively. A 10% change in equity price as of March 31, 2020 and 2019 would result in an impact of **₹14.10 crores** and **₹27.11 crores**, respectively.

(Note: The impact is indicated on equity before consequential tax impact, if any).

(ii) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

Notes Forming Part of Financial Statements

Financial instruments that are subject to concentrations of credit risk, principally consist of investments classified as fair value through profit and loss, trade receivables, loans and advances and derivative financial instruments. None of the financial instruments of the Company result in material concentrations of credit risks.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹9,966.54 crores and ₹8,619.83 crores as at March 31, 2020 and 2019, respectively, being the total of the carrying amount of balances with banks, short term deposits with banks, trade receivables, finance receivables, margin money and other financial assets excluding equity investments.

Financial assets that are neither past due nor impaired

None of the Company's cash equivalents, including short term deposits with banks, are past due or impaired. Regarding trade receivables and other receivables, and other loans or receivables that are neither impaired nor past due, there were no indications as at March 31, 2020, that defaults in payment obligations will occur.

Credit quality of financial assets and impairment loss

The ageing of trade receivables as of balance sheet date is given below. The age analysis has been considered from the due date.

(₹ in crores)						
Trade receivables	As at March 31, 2020			As at March 31, 2019		
	Gross	Allowance	Net	Gross	Allowance	Net
Period (in months)						
(a) Not due	870.05	(3.93)	866.12	1,260.05	(4.76)	1,255.74
(b) Overdue up to 3 months	426.24	(6.11)	420.13	1,274.10	(5.60)	1,268.50
(c) Overdue 3-6 months	206.44	(26.49)	179.95	183.80	(16.00)	167.80
(d) Overdue more than 6 months	1,115.08	(603.22)	511.86	1,133.10	(574.50)	558.60
TOTAL	2,617.81	(639.75)	1,978.06	3,851.50	(600.86)	3,250.64

Trade receivables overdue more than six months include ₹471.35 crores as at March 31, 2020 (₹513.08 crores as at March 31, 2019) outstanding from state government organisations in India, which are considered recoverable.

Trade receivables consist of a large number of various types of customers, spread across geographical areas. Ongoing credit evaluation is performed on the financial condition of these trade receivables and where appropriate allowance for losses are provided. Further the Company, Groups the trade receivables depending on type of customers and accordingly credit risk is determined.

(iii) Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company has obtained fund and non-fund based working capital lines from various banks. Further, the Company has access to funds from debt markets through commercial paper programs, non-convertible debentures, senior notes and other debt instruments. The Company invests its surplus funds in bank fixed deposit and liquid and liquid plus schemes of mutual funds, which carry no/low mark to market risks. The Company has also invested 15% of the non-convertible debentures (taken/ issued by the Company) falling due for repayment in the next 12 months in bank deposits, to meet the regulatory norms of liquidity requirements.

The Company also constantly monitors funding options available in the debt and capital markets with a view to maintaining financial flexibility.

Notes Forming Part of Financial Statements

The table below provides details regarding the contractual maturities of financial liabilities, including estimated interest payments as at March 31, 2020:

(₹ in crores)						
Financial liabilities	Carrying amount	Due in 1st Year	Due in 2nd Year	Due in 3rd to 5th Year	Due after 5th Year	Total contractual cash flows
(a) Trade payables	8,102.25	8,102.25	-	-	-	8,102.25
(b) Acceptances	2,741.69	2,741.69	-	-	-	2,741.69
(c) Borrowings and interest thereon	25,843.49	12,027.85	3,832.86	8,535.65	5,845.32	30,241.68
(d) Other financial liabilities	1,605.99	1,013.70	199.60	357.53	62.52	1,633.35
(e) Lease liabilities	605.54	191.98	159.85	240.31	129.76	721.90
(f) Derivative liabilities	279.48	39.03	-	21.07	219.38	279.48
TOTAL	39,178.44	24,116.50	4,192.31	9,154.56	6,256.98	43,720.35

The table below provides details regarding the contractual maturities of financial liabilities, including estimated interest payments as at March 31, 2019:

(₹ in crores)						
Financial liabilities	Carrying amount	Due in 1st Year	Due in 2nd Year	Due in 3rd to 5th Year	Due after 5th Year	Total contractual cash flows
(a) Trade payables	10,408.83	10,408.83	-	-	-	10,408.83
(b) Acceptances	3,093.28	3,093.28	-	-	-	3,093.28
(c) Borrowings and interest thereon	19,012.67	6,183.66	5,140.86	7,046.68	4,745.97	23,117.17
(d) Other financial liabilities	874.68	752.31	21.41	71.79	56.85	902.36
(e) Derivative liabilities	68.96	10.53	0.86	-	57.57	68.96
TOTAL	33,458.42	20,448.61	5,163.13	7,118.47	4,860.39	37,590.60

(iv) Derivative financial instruments and risk management

The Company has entered into a variety of foreign currency, interest rates and commodity forward contracts and options to manage its exposure to fluctuations in foreign exchange rates, interest rates and commodity price risk. The counterparty is generally a bank. These financial exposures are managed in accordance with the Company's risk management policies and procedures.

The Company also enters into interest rate swaps and interest rate currency swap agreements, mainly to manage exposure on its fixed rate or variable rate debt. The Company uses interest rate derivatives or currency swaps to hedge exposure to exchange rate fluctuations on principal and interest payments for borrowings denominated in foreign currencies.

Specific transactional risks include risks like liquidity and pricing risks, interest rate and exchange rate fluctuation risks, volatility risks, counterparty risks, settlement risks and gearing risks.

Fair value of derivative financial instruments are determined using valuation techniques based on information derived from observable market data.

The fair value of derivative financial instruments is as follows:

(₹ in crores)		
	As at March 31, 2020	As at March 31, 2019
(a) Foreign currency forward exchange contracts and options	941.36	378.91
(b) Commodity Derivatives	(12.79)	1.70
(c) Interest rate derivatives	(240.45)	(57.57)
TOTAL	688.12	323.04

The gain due to fluctuation in foreign currency exchange rates on derivative contracts, recognised in the income statement was ₹291.73 crores and ₹36.84 crores for the years ended March 31, 2020 and 2019, respectively.

The loss on commodity derivative contracts, recognised in the income statement was ₹20.70 crores and ₹2.46 crores for the years ended March 31, 2020 and 2019, respectively.

Notes Forming Part of Financial Statements

44. SEGMENT REPORTING

The Company primarily operates in the automotive segment. The automotive segment includes all activities relating to development, design, manufacture, assembly and sale of vehicles, as well as sale of related parts and accessories. The Company's products mainly include commercial vehicles and passenger vehicles.

Accordingly, the automotive segment is bifurcated into the following:

- (i) Commercial vehicles
- (ii) Passenger vehicles

(₹ in crores)				
	For the year ended/as at March 31, 2020			
	Commercial Vehicle	Passenger* Vehicle	Corporate/Unallocable	Total
Revenues:				
External revenue	32,932.89	10,772.47	222.81	43,928.17

Notes Forming Part of Financial Statements

The assumptions used in accounting for the pension and post retirement medical plans are set out below:

	Pension Benefits		Post retirement medical Benefits	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019
Discount rate	6.10%-6.90%	6.75%-7.70%	6.90%	7.60%
Rate of increase in compensation level of covered employees	5.00% - 10.00%	6.00% - 10.00%	NA	NA
Increase in health care cost	NA	NA	6.00%	6.00%

Plan Assets

The fair value of Company's pension plan asset as of March 31, 2020 and 2019 by category are as follows:

	Pension Benefits	
	As at March 31, 2020	As at March 31, 2019
Asset category:		
Cash and cash equivalents	6.5%	7.2%
Debt instruments (quoted)	67.5%	66.4%
Debt instruments (unquoted)	0.6%	0.8%
Equity instruments (quoted)	2.9%	2.9%
Deposits with Insurance companies	22.5%	22.7%
	100.0%	100.0%

The Company's policy is driven by considerations of maximising returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published bench marks.

The weighted average duration of the defined benefit obligation as at March 31, 2020 is **14.0 years** (March 31, 2019 : 14.4 years).

The Company expects to contribute **₹90.01 crores** to the funded pension plans during the year ended March 31, 2021.

The table below outlines the effect on the service cost, the interest cost and the defined benefit obligation in the event of a decrease/ increase of 1% in the assumed rate of discount rate, salary escalation and health care cost:

Assumption	Change in assumption	Impact on defined benefit obligation	Impact on service cost and interest cost
Discount rate	Increase by 1%	₹ 106.04 crores	₹ 19.70 crores
	Decrease by 1%	₹ 121.94 crores	₹ 19.91 crores
Salary escalation rate	Increase by 1%	₹ 94.64 crores	₹ 19.85 crores
	Decrease by 1%	₹ 85.22 crores	₹ 17.46 crores
Health care cost	Increase by 1%	₹ 20.26 crores	₹ 4.28 crores
	Decrease by 1%	₹ 17.04 crores	₹ 3.53 crores

Total recognised in other comprehensive income	17.81
Total recognised in statement of profit and loss and other comprehensive income	137.12

The assumptions used in determining the present value obligation of the Provident Fund is set out below:

Particulars	As at March 31, 2020
Discount rate	6.90%
Expected rate of return on plan assets	8.20% to 8.60%
Remaining term to maturity of portfolio	19.0

The breakup of the plan assets into various categories as at March 31, 2020 is as follows:

Particulars	As at March 31, 2020
Central and State government bonds	44.2%
Public sector undertakings and Private sector bonds	34.1%
Others	21.7%
TOTAL	100.0%

The asset allocation for plan assets is determined based on investment criteria prescribed under the relevant regulations

As at March 31, 2020, the defined benefit obligation would be affected by approximately ₹158.78 crores on account of a 0.50% decrease and ₹3.87 crores on account of a 0.50% increase in the expected rate of return on plan assets.

- (ii) The Company's contribution to defined contribution plan aggregated to ₹77.89 crores and ₹184.80 crores for the years ended March 31, 2020 and 2019, respectively.
